U.S. Patent 11,241,782

Meet *The Pic*. Loaded with three pro-quality, 1/4" hex, two-inch long POWERBITS, The Pic offers users the three bits they use most, stored in a handy, pocket-friendly, ultra-light handle.

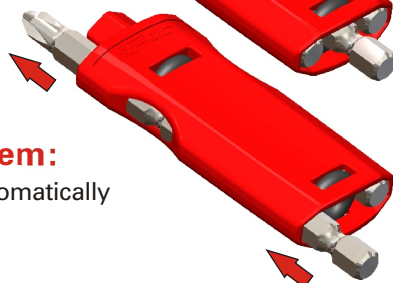

### In-use:

To use The Pic simply insert the working bit into the magnetic shank area, and start driving.

### Pocket-friendly:

Storing the third bit in the rear centre of the handle makes The Pic ready for pocket storage.

### Instant bit-change system:

Storing a bit in the rear (side) automatically ejects the next bit selected.

## \$20 Flat-rate Spec sample policy:

Choose **ANY** Picquic product for a specification or pre-production sample, with full-colour print and pay one low cost of just **\$20** net. Set-up costs do not apply for these samples but will be applied on any resulting orders per our usual terms.

**FREE SHIPPING TOO!** That's right, we'll even pay the freight for your spec or pre-production sample, via our carrier.

## Imprinting charges and details (g)

**Art requirements:** Vector files only (.AI, .EPS) All fonts converted to curves, with transparent background. Art must be provided with all colours in the file shown as WYSIWYG (what you see is what you get), with PMS, CMYK or RGB values provided for each colour in the art

**Proofs:** We will size your print to fit the individual handle(s) to ensure accuracy and provide 100% size electronic (PDF) proof showing print on virtual product.

### Pantone colours: PMS (pantone matching system)

Our printer prints in CMYK. As a result, any specific PMS colours must be identified to us or we cannot print the job. All PMS "matches" are produced by a CMYK print process, not by pantone ink mixture. Clients must accept that the colour is produced by CMYK and may vary slightly from the pure pantone equivalent. For an exact PMS match, we can apply custom blended PMS ink with pad printing for an extra charge. Extra charge varies by model, colour and quantity. Please inquire.

**Customers will assume complete responsibility for obtaining proper permission for reproduction of logos, patents, trademarks and copyrights.**

**Standard Delivery:** 2 weeks from final proof approval (plus transport time). Orders can be rushed and variable extra charges apply - please inquire at time of order.

**Origin & shipments:** All Picquic products are manufactured in our Vancouver, BC Canada plant. Shipments are FOB our Vancouver plant.

**Bulk packaging:** Product comes standard in bulk (6 pcs. per carton), EXCEPT Teeny Turner (36 pcs.), and The Pic (10 pcs.) per carton. **Bulk packing is no charge.**

**Packaging (G):** Multique, Teeny Turner and STUBBY all come in optional blister packages. The SIXPAC Plus, Dash 7, Mariner, SUPER 8 Plus and The Pic come in optional paperboard boxes. Costs shown below:

All optional packages: \$0.35 ea. (g)

## The Picquic family

Our very first Picquic Promotional sale was to a cheese producer in Ontario, Canada. Buy a wheel of cheese; get an 'Ivanhoe' screwdriver (what a great deal)! This, among many other reasons, is why we truly believe Picquics are for everyone.

Over the years our drivers have worn many different logos from realty groups, trucking and construction companies, schools, tech producers, grocers, charity fundraisers and more. Chances are, if you receive a Picquic it's going to come in handy, no matter your vocation.

Our entire line of screwdrivers make excellent corporate gifts, incentives and rewards. There's a Picquic model and colour to suit nearly every budget and brand. Picquics are also made to last (and made in Canada!) which makes them easy to appreciate for years to come.

## Thanks for considering Picquic for your promotional tool.
